AIRAC
AIP SUPPLEMENT

A6/09
28 May 2009

CANCELLATION OF REPRESENTATIVE FRACTION
SCALE ON INSTRUMENT APPROACH CHART
CONTAINED IN AIP-THAILAND

According to the new features of AIP Thailand consisting of the three following editions :

1. General / GEN and Enroute / ENR
2. International Aerodrome (AD1), Volume I
3. Domestic Aerodrome (AD2), Volume II,

all of them are currently in a size of A4 paper, thus, it results in the deviation from the fact in terms of scale used in Instrument Approach Charts (IAC).

In this regard, please cancel the Representative Fraction Scale contained in the AIP except for the Bar scale. However, the data as well as procedure contained therein remain unchanged. The Chart will be corrected by the forthcoming Amendment.

This AIP Supplement will be effective as of 2 July 2009 and cancelled when all charts are correctly amended.
